NUMBER OF BERTHS WITH ELEVATING BED (OPT)	5
SEATS AT THE TABLE	5

PACK

FIAT TRAVEL PACK

- Fog lights; Traction+; 16" alloy wheels with composite suspension; black skid plate, grille, headlamp surround; steering wheel controls

ELEGANCE PACK - FIAT TRAVEL PACK required

- Techno dashboard; TPMS; DRL LED on Mc4*; leather steering wheel and gearbox

ELEGANCE PLUS PACK - FIAT TRAVEL PACK required

- Techno dashboard; TPMS; Full LED headlights; leather steering wheel and gearbox

EXTRA TECH PACK - FIAT TRAVEL PACK and one of the two ELEGANCE PACKS are required

- Full digital cluster; automatic climate control system; electric handbrake

PACK MATIC - FIAT TRAVEL PACK

- Automatic transmission

EXPO PACK

- Solar panel; rear-view camera; pleated blind

ENJOY OUTDOOR PACK

- External gas socket; hand shower in garage; external media socket (12 V / 220 V / TV), equipped Garage wall; awning

EXTRA WARM PACK

- Truma Combi 6 E; winter pack; step insulation; electrically heated floor

SERIES 800 DIGITAL/SATELLITE TV PACK

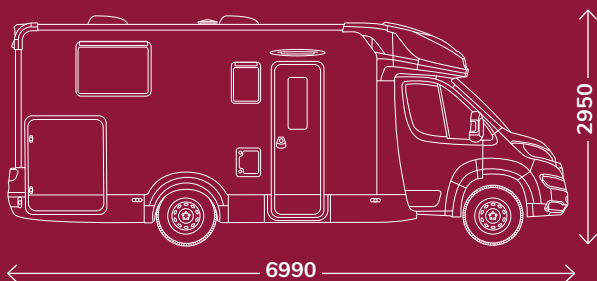

- 32" Smart TV; Digital/Satellite antenna

TV WI-FI PACK

- 32" Smart TV; Wi-Fi router

Chassis	FIAT
Engine, Power	2,2 MJ 140 HP
Maximum technically permissible weight (kg)	3500
Weight unladen in running conditions (kg)	2899
Pay Load (kg)	601
Wheelbase (mm)	3800
Maximum towable weight (kg)	2000
Wheels dimensions	15"
Manual air conditioning	S
Driver and Passenger airbag	S
Cruise Control with speed limiter	S
ABS / ESC	S/S
Driver and passenger swivelling seats	S
Cab seat covers	S
Painted front bumper	S
Dimensions and places	
External length (mm) / External width (mm)	6990 / 2350
External height(cm) / Internal height (cm)	295 / 208
Auxiliary bed in dinette	S
Rear Bed (cm)	210x130
Manual rear bed height adjustment	S
Dimensions Auxiliary bed in Dinette (cm)	216x97(89)
Elevating Bed (cm)	190x123(103)
Locker (useful opening, cm)	115x95
Max. internal garage height (cm)	125
Floor / walls / roof thickness (cm)	5,4 / 3 / 3
Floor / walls / roof material	MTS / VTR / VTR
Fiberglass roof, hail-proof	S
Installations	
Burners	3
Tank capacity : clear water / wastewater (l)	20(100) / 100
Automatic trivalent fridge (220V, 12V, gas) (l)	135
Standard heating system	Combi Gas 4 kW
Space for 2 gas bottles (tot. Max 15 kg)	S
Bathroom window (double opaque glass)	S
Shower tray with double drain	S
Integrated entry step	S
Heated garage locker	S
Skylight	
Panoramic roof (mm)	S (1000x800)
Rear skylight (mm)	S (400x400) / O (960x655)
Central skylight (mm)	S (400x400)
Double-glazed windows with blind / mosquito net	S
Equipments	
Thermal blind	S
Beds with staves	S
CP Plus control panel	S
32" TV holder	S
Internal LED lightening	S
Exteriors	
Entrance door with fixed window	S
Flyscreen for entrance door	S
Entrance door with two central locking points	S
XL Entrance door	S
External LED light	S

S= standard O=optional VTR= Fibreglas MTS= multi-layered plywood
The mass in running order includes the weight of the empty base vehicle, of the driver (75 kg), 100% of the fuel (60-l tank), fresh water (tank filled with 20 l while travelling), and aluminium gas cylinders (max.15 kg) filled to 90% of their capacity, and tolerance specified in the type-approval (+/- 5%) (2007/46/EC). Anything not included in the standard version of the vehicle, both living unit and chassis, results in an increase in weight in running order with resulting decreased payload up to the possible reduction of approved seats in the case of the total weight for the available payload value. The available payloads result from the difference between maximum permissible mass and running order mass and have a tolerance of 5%. During the purchase phase it is necessary to check the weight of the options to be installed on the vehicle.

The mass in running order includes the weight of the empty base vehicle, of the driver (75 kg), 100% of the fuel (60-l tank), fresh water (tank filled with 20 l while travelling), and aluminium gas cylinders (max.15 kg) filled to 90% of their capacity, and tolerance specified in the type-approval (+/- 5%) (2007/46/EC). Anything not included in the standard version of the vehicle, both living unit and chassis, results in an increase in weight in running order with resulting decreased payload up to the possible reduction of approved seats in the case of the total weight for the available payload value. The available payloads result from the difference between maximum permissible mass and running order mass and have a tolerance of 5%. During the purchase phase it is necessary to check the weight of the options to be installed on the vehicle.

The masses indicated in the technical data sheets refer to the provisions of European Directive 2007/46/EC.

MASS IN RUNNING ORDER

It includes the weight of the empty base vehicle, of the driver (75 kg), 100% of the fuel (60-l tank), fresh water (tank filled with 20 l while travelling), and a gas tank for living purposes (20 kg). The mass in running order, and consequently the payload and/or certified seats may vary depending on the accessories installed.

PAYLOAD

This consists of the difference between the maximum technically permissible laden mass and the mass in running order. It includes elements for living purposes, the transported passengers defined by the manufacturer (driver excluded), and the personal effects.

The payload calculation is based on the following parameters: 75 kg for each passenger (driver excluded), 10 kg of baggage for each passenger and for the driver, 10 kg for each metre of length of the vehicle, plus the remaining payload, which can be used for the installation of accessories or for additional baggage.

All masses and loads of the empty vehicle have a tolerance of +/- 5%, in compliance with Directive 2007/46/EC.

Any optional equipment increases the mass in running order and decreases the payload.

The weight of non-standard accessories is not included in the mass in running order indicated in this catalogue. Additional accessories and devices reduce the payload by a quantity equal to their weight; the incidence of the weight of the individual accessories is shown in the special column in the technical data sheets or can be requested at our dealers. In case certain accessories are installed (for example, additional elements such as coupling device or motorbike rack), the mass of these accessories will affect the payload, possibly reducing it along with the number of certified seats. Please note that the law does not allow the maximum permissible mass to be exceeded, which can be consulted under the specific heading of the data sheets. Please make sure that the maximum loads on the axles and the maximum technically permissible load mass are not exceeded during the complete loading phase of the vehicle. The regulations and requirements of each country may entail changes in the characteristics of this table. The number of certified seats may vary depending on the traffic regulations in force in each country. When driving, the fresh water tank must be filled to a maximum of 20 litres.
