

HOMOLOGATED SEATS	4
BERTHS	2

SILVER PACK

- · Solar panel
- Enclosure

MATIC PACK*

- · Automatic transmission
- · 16" black diamond-finish alloy wheel rims

Chassis	FIAT
Engine, Power	2,2 MJ 140 HP
Maximum technically permissible weight (kg)	3300
Weight unladen in running conditions Min / Max (kg)	2865 / 2980
Pay Load Min / Max (kg)	435/320
Wheelbase (mm)	3450
Maximum towable weight (kg)	2500
Wheels dimensions	16"
Manual air conditioning	S
Driver and Passenger airbag	S
Cruise Control with speed limiter	S
ABS / ESC	S/S
Swivelling driver' and passenger's seat	S
Cab seat covers	S
Painted cab	WHITE
Painted front bumper	S
Dimensions and places	
External lenght (mm)	5410
External width (mm)	2050
External height(cm) / Internal height (cm)	265 / 189
Rear bed (cm)	186×132(116)
Additional bed kit in dinette (cm)	O (188×120/50)
Beds with staves	S
Skylight	3
Panoramic skylight 700x500 mm	S
400x400 mm skylight	S
Fixed, panorama roof in the cab	0
Openable rear windows	S
Double-glazed windows with blind / mosquito net	S
Installations	3
Burners	2
Tank capacity : clear water / wastewater (I)	90/75
Compressor fridge (I)	70
Standard heating system	COMBI DIESEL 4kW
Space for 2 gas bottles (tot. Max 7 kg)	S
Bathroom window (double opaque glass)	S
Internal insulation material	POLYESTER FIBER AND
	ALUMINIUM
Floor thickness (mm)	36
Equipments	
Lifting roof with integrated double bed	0
Open space cabin	S
Pleated cab blind	S
Cab carpet	S
Table extensions in dinette	S
Folding table	S
Sliding electrical step	S
Storage under the dinette table	S
Flyscreen for sliding door	S
Internal LED lightening	S
9" capacitive touch screen Pioneer radio Android Auto /Apple CarPlay wireless with steering wheel controls Rear-view camera	S S
Black grille, headlights, skid plate	S
Techno Trim	S
Exteriors	_
External LED light	S

^{*} Available from 140 HP

The masses indicated in the technical data sheets refer to the provisions of European Directive 2007/46/EC.

MASS IN RUNNING ORDER

It includes the weight of the empty base vehicle, of the driver (75 kg), 100% of the fuel (60-l tank), fresh water (tank filled with 20 l while travelling), and a gas tank for living purposes (20 kg). The mass in running order, and consequently the payload and/or certified seats may vary depending on the accessories installed.

PAYLOAD

This consists of the difference between the maximum technically permissible laden mass and the mass in running order. It includes elements for living purposes, the transported passengers defined by the manufacturer (driver excluded), and the personal effects.

The payload calculation is based on the following parameters: 75 kg for each passenger (driver excluded), 10 kg of baggage for each passenger and for the driver, 10 kg for each metre of length of the vehicle, plus the remaining payload, which can be used for the installation of accessories or for additional baggage.

All masses and loads of the empty vehicle have a tolerance of +/- 5%, in compliance with Directive 2007/46/EC.

Any optional equipment increases the mass in running order and decreases the payload. The weight of non-standard accessories is not included in the mass in running order indicated in this catalogue. Additional accessories and devices reduce the payload by a quantity equal to their weight; the incidence of the weight of the individual accessories is shown in the special column in the technical data sheets or can be requested at our dealers. In case certain accessories are installed (for example, additional elements such as coupling device or motorbike rack), the mass of these accessories will affect the payload, possibly reducing it along with the number of certified seats. Please note that the law does not allow the maximum permissible mass to be exceeded, which can be consulted under the specific heading of the data sheets. Please make sure that the maximum loads on the axles and the maximum technically permissible load mass are not exceeded during the complete loading phase of the vehicle. The regulations and requirements of each country may entail changes in the characteristics of this table. The number of certified seats may vary depending on the traffic regulations in force in each country. When driving, the fresh water tank must be filled to a maximum of 20 litres.
